

BANK SOHAR STAFF RECEIVE HEALTH EDUCATION BRIEFING ON SWINE FLU IN OMAN

Bank Sohar staffs have received an in-depth briefing about Swine Flu in Oman and how to take precautionary measures to avoid the spread of the H1N1 Virus.

Staff attended the briefing at the MBD branch and listened to a presentation from Dr. Nasneen Irfan, Family Physician at Welcare Diagnostic & Treatment Centre.

The objective of the briefing was to alert staff to the risks from swine flu and to educate them about simple preventive measures. A copy of the presentation and the prevention guidelines was distributed to all the branch staff across the Sultanate who were unable to attend the seminar.

The DGM - Human Resources and Corporate Support Ms. Munira Abdalnabi Macki explained: “The seminar was important to educate our staff about their own safety in relation to swine flu and also to ensure they are aware of the recommendations for prevention. This is particularly important for our staffs that are in direct contact with the public on a day to day basis through our network of branches.”
